

FOR IMMEDIATE RELEASE

OneCompass Holdings Announces Acquisition of Aquinas Leadership Group to Expand Training and Development Capabilities

Dublin, OH, February 21, 2025 – OneCompass Holdings (OCH), a leader in innovative business solutions, today announced the acquisition of Aquinas, a premier provider of sales and compliance training for the pharmaceutical and medical device industries. This strategic acquisition enhances OneCompass Holdings' robust internal training programs while expanding its ability to deliver high-quality learning solutions to external organizations.

OneCompass Holdings has long been committed to investing in workforce education, recognizing that a well-educated workforce is critical to long-term business success. Education is a core pillar of OCH's business operating model—an area where many companies fall short in their investment. By bringing Aquinas under its umbrella, OCH will strengthen its internal talent development initiatives while expanding Aquinas's industry-leading training solutions to more organizations.

"Education and training are at the heart of what we do at OneCompass Holdings," said Matt Hartman, Chairman and CEO of OneCompass Holdings. "Aquinas has built a strong reputation for delivering best-in-class sales and compliance training in the pharmaceutical and medical device industries. This partnership allows us to build on that foundation by integrating our leadership development training, certified by Denison EDGE, through Denison University, to offer even greater value to our customers and portfolio companies."

Aquinas specializes in sales and compliance training, leadership development, and digital learning solutions designed to enhance employee performance and business outcomes. Post-acquisition, OCH plans to expand Aquinas's offerings to include the leadership development programs currently owned by OneCompass Holdings and certified by Denison EDGE. This expansion will further reinforce OneCompass Holdings' commitment to workforce excellence and its vision of creating best-in-class training opportunities for employees and clients.
